- ▼ Järna

Nordic Flanges Group AB (publ.)

Our Offer

Our Product Offer

- **Stainless Steel**

- Flanges according to all international and industry standards
- All flange types: W.N, Flat, Loose, Threaded, Socket, Blind etc.)
- Welding rings according to EN 1092-1
- Custom made products based on customer drawings
- Forging range DN 10 - 400, up to 115 kg
- Welding range DN 10 - 1200

- **Aluminium**

- Blind and loose cast flanges in all standards DN 10-1200
- Custom made products based on customer drawings
- ProQ™ - the new pressure approved aluminium flange

- **Carbon Steel**

- Flanges according to all international and industry standards
- All flange types: W.N, Flat, Loose, Threaded, Socket, Blind etc.
- Custom made products based on customer drawings
- Dimensions up to DN 2100

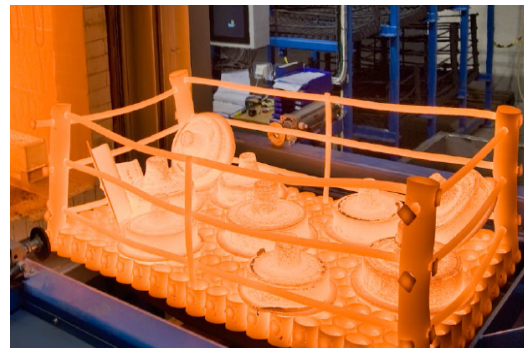

Our Production

Själevad

- **Stainless steel forging**
 - Stock of raw material (EU origin) and semi-made products
 - Heat treatment
 - Trimming press and plasma cutting
 - Welding
 - Machining
 - Laboratory
- **Welding ring with collar**
 - Dimensions up to DN 1400
- **Materials**
 - Austenitic grades: 304L, 316L, 321H, 254 SMO etc.
 - Duplex grades: F51, F53, F55 and others
 - Special metals, e.g. titanium grade II and B381 F2

Kronoby

- **Aluminium casting**
 - Casting of standard flanges in standard alloy EN AC-47000 Al-Si 12 (Cu)
 - Aluminum alloys according to customer spec.
 - Custom flanges - from mould designing to final machining
 - Blank or with epoxy polyester (powder coated)

Kalajoki

- **Carbon steel and stainless steel production**
 - Production of standard and special flanges by flame and plasma cutting from plate
 - Advanced machining of flanges
 - Manufacture of products according to customer's drawings
 - Welding and forming

Certified operations – Nordic Quality™
