Stockholm February 11:th, 2019

Dear customers,

A new year and new business opportunities ahead! We start this year with a record breaking order stock.

End of last year and beginning of this year we see a very positive trend in sales to Oil & Gas markets in Norway, the UK and Canada. Our export sales to middle and south Europe and USA have also increased.

Our implementation of our new ERP system MONITOR is now in the final phase.

The planning and preparations for the movement of our stock from Järna to the factory in Örnsköldsvik coming spring is ongoing and we are still aiming for June to complete this project.

The project with the standard SFS-ISO 45001: 2018 Occupational Health and Safety System is completed and attached to the quality manual in NFOY in Kronoby and Ferral Components in Kalajoki. This will be audited by Inspecta in June.

I look forward to a successful 2019

Frederik von Sterneck
CEO Nordic Flanges Group AB (publ.)
